EDUCATION:

University of Houston-Downtown, College of Business: Graduation date Fall 2019

Bachelor of Business Administration in Management Information Systems (BBA MIS)

Lone Star College, Cy fair: May 2013 Associate of Science (AS)

Miller Career center, Katy: May 2010

Digital Audio, Computer Maintenance, Cisco academy introduction to Networks: Certificate of completion

TECHNICAL SKILLS:

Familiar with Linux: Red Hat, Tails, Raspbian and command line environments. Knowledge of routing, switching, network applications and protocols. Completed projects utilizing Java, Python, and C++ within IDE's: Visual Studio, Eclipse, Android Studio, and infrastructures within Azure, AWS.

PROJECTS:

Wifi traffic control Via linux:

Utilizing a Raspberry PI 3 with Raspbian OS as a DNS sinkhole, protected devices on the network from unwanted content, by configuring the router's DHCP options to force clients to use the RP3 as the DNS server. Written in Rust, The API exposed a RESTful HTTP API which was used by the web interface providing a more intuitive interface to monitor traffic.

Image Classifier Application:

Trained a TensorFlow model to classify cat images using Azure DSVM by Creating a Linux DSVM in Azure utilizing X2Go client. Trained MobileNet models within TensorFlow revoked via running a Python script. Using the Tkinter GUI framework with Python to pass images invoked via Visual Studios Integrated Terminal.
